Informed Consent To Chiropractic Treatment

The nature of chiropractic treatment: In this office, we focus on the detection, analysis, and correction of vertebral subluxations, and will not be looking for or diagnosing medical diseases or conditions. The doctor of chiropractic will use his/her hands or a mechanical device in order to move your joints. You may feel a "click" or "pop," such as the noise when a knuckle is "cracked," and you may feel movement of the joint. Various ancillary procedures, such as hot or cold packs, muscle stimulation, therapeutic ultrasound, or traction may also be used.

Possible risks: As with any health care procedures, complications are possible following a chiropractic manipulation. Complications could include fractures of bone, muscular strain, ligamentous sprain, dislocations of joints, or injury to intervertebral discs, nerves or spinal cord. Cerebrovascular injury (stroke) could occur upon severe injury to arteries of the neck. A minority of patients may notice stiffness or soreness after the first few days of treatment. The ancillary procedures could produce skin irritation, burns or other minor complications.

Probability of risks occurring: The risks of complications due to chiropractic treatment have been described as "rare," about as often as complications are seen from the taking of a single aspirin tablet. The risk of cerebrovascular accident, or stroke, have been estimated at one in one million to one in ten million, and can be even further reduced by screening procedures. The probability of adverse reaction due to ancillary procedures is also considered "rare."

Other treatment options that could be considered may include the following:

1 *Over-the-counter analgesics*. The risks of these medications include irritation to stomach, liver and kidneys, and other side effects in a significant number of cases.
2 *Medical care*. Typically anti-inflammatory drugs, tranquilizers, and analgesics. Risks of these drugs include a multitude of undesirable side effects, and patient dependence in a significant number of cases.
3 *Hospitalization.* In conjunction with medical care adds risk of exposure to virulent communicable disease in a significant number of cases.
4 *Surgery*. In conjunction with medical care adds the risks of adverse reaction to anesthesia, as well as an extended convalescent period in a significant number of cases.

Risks of remaining untreated: Delay of treatment allows formation of adhesions, scar tissue and other degenerative changes. These changes can further reduce skeletal mobility, and induce chronic pain cycles. It is quite probable that delay of treatment will complicate the condition, and make future rehabilitation more difficult.

I have read the explanation above of chiropractic treatment. I have had the opportunity to have any questions answered to my satisfaction. I have fully evaluated the risks and benefits of undergoing treatment. I have freely decided to undergo the recommended treatment, and hereby give my full consent to treatment.

Financial Policies

We believe in a fair service for a fair fee. In order to avoid misunderstandings, we have developed the following policies. If at any time you have questions regarding your care or the fees associated with your care, please speak to us. We are always happy to answer you questions. What follows are the answers to the most common questions, followed by the insurance agreement.

- Fees are based on the time a procedure takes, the difficulty of the problem, and the type of service provided.

- Your co-payment is due at time of office visit.

- Our fees are usual and customary for this area. We do not accept what some insurance companies arbitrarily set. The agreement you have with your insurance company is between you and them. Ultimately, you are responsible for the bill if they do not pay. Do not be afraid to fight your carrier.

- If you are involved in an automobile accident, we will bill your car insurance first, then your health insurance. When your claim settles, the insurance companies will work out repayment with each other.

- In automobile accidents, we will carry patient balances, if your attorney furnishes a letter of protection. A reputable attorney will not have a problem with this.

- While we will do everything we can do in an ethical and cost efficient manner, we cannot guarantee a cure of your condition. If you ever have any question regarding your care, your health condition, chiropractic, treatment, or other treatment options, please discuss them with your chiropractor.

- Your appointment time is reserved for you. Please give 24-hour notice for rescheduling your appointment. There will be a $25.00 charge for missed appointments, or cancelled appointments without at least a 24-hour notice.

- If you walk-in to be seen by the doctor without an appointment time, you will have to wait for the next available time slot, or you will be asked to return at a later time.

By signing this form, you agree to the preceding policies and further authorize payment of medical benefits to this office for all services provided. You also authorize the release of copies of your medical records or other information necessary to process your claims. I also request payment of government benefits to this office as it accepts assignment.
